## **DETAILED ACTION**

### ***Drawings***

1. The drawings were received on April 21, 2005. These drawings are accepted by the Examiner.

### ***Double Patenting***

2. The nonstatutory double patenting rejection is based on a judicially created doctrine grounded in public policy (a policy reflected in the statute) so as to prevent the unjustified or improper timewise extension of the "right to exclude" granted by a patent and to prevent possible harassment by multiple assignees. See *In re Goodman*, 11 F.3d 1046, 29 USPQ2d 2010 (Fed. Cir. 1993); *In re Longi*, 759 F.2d 887, 225 USPQ 645 (Fed. Cir. 1985); *In re Van Ornum*, 686 F.2d 937, 214 USPQ 761 (CCPA 1982); *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970); and, *In re Thorington*, 418 F.2d 528, 163 USPQ 644 (CCPA 1969).

A timely filed terminal disclaimer in compliance with 37 CFR 1.321(c) may be used to overcome an actual or provisional rejection based on a nonstatutory double patenting ground provided the conflicting application or patent is shown to be commonly owned with this application. See 37 CFR 1.130(b).

Effective January 1, 1994, a registered attorney or agent of record may sign a terminal disclaimer. A terminal disclaimer signed by the assignee must fully comply with 37 CFR 3.73(b).

3. Claims 31-32 are rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claims 14, 19-20 and 25-28 of U.S. Patent No. 6,685,383. Although the conflicting claims are not identical, they are not patentably distinct from each other because they are claimed the same subject matters in the claims (See claims 14, 19 and 27-28 of U.S. Patent No. 6,685,383).

### ***Allowable Subject Matter***

4. Claims 29-30 and 33-34 are allowed (Claims 1-28 are canceled by Applicant).
5. The following is a statement of reasons for the indication of allowable subject matter:

The primary reason for the allowance of claims 29-30 is the inclusion of the limitation of the locking ring being attached and held next to the radio mounting face, able to rotate with respect to the radio mounting face, as the locking ring is rotated into and out of the secured engagement with the antenna mounting face. It is this limitation found in each of the claims, as it is claimed in the combination, that has not been found, taught or suggested by the prior art of record which makes these claims allowable over the prior art.

The primary reason for the allowance of claims 33-34 is the inclusion of the limitation of placement of a pin in the first pinholes position the antenna for a first polarization direction, or placement of a pin in the second pinholes position the antenna for a second polarization direction. It is this limitation found in each of the claims, as it is claimed in the combination, that has not been found, taught or suggested by the prior art of record which makes these claims allowable over the prior art.

### ***Response to Arguments***

6. Applicant's arguments filed April 21, 2005 have been fully considered but they are not persuasive. Because claim 31 have been amendment to be in independent form is rejected under the judicially created doctrine of obviousness-type double patenting.

### ***Conclusion***

7. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
